

What is this plan?

This is a plan designed to save you money, every time you need health care. It is NOT an HMO, Health Flex, pre-paid plan or Medical Discount plan. You pay for services rendered on a monthly installment basis.

How does it work?

American Care operates medical centers, which are comprised of primary care physicians, diagnostic services and specialists. When presenting for service to one of our centers or health care providers, the centers or providers verify on-line at www.americancare.net/verify that you are eligible under this program. You too can go to this site to ascertain that you are current on your payments. At the provider's office, show your American Care identification.

What are the fees?

At American Care medical centers, when you sign up, you contract for an initial annual physical examination with diagnostic services. Extended family of enrolled members qualify to join this plan for \$15 per month per person, for a period of 12 months.

During the time you are paying your annual physical examination you are entitled to visit the American Care centers for follow up visits and services at the specified rates.

What is included in the annual physical?

The annual physical examination will be done in the 2nd month of covered and includes:

One electrocardiogram, one complete blood cell count (CBC), one comprehensive chemistry panel (kidney functions, liver functions, glucose (sugar), calcium), one cholesterol level, and one urinalysis.

How do I find a Healthcare Provider?

A provider list is available to all members online at www.americancare.net. You can also obtain a list by calling 305-278-0200.
